

Maggie Tries to Grow Poppies

Maggie loved poppies ever since her mommy sat her in a field of poppies to take her photo when she was very little.

Maggie wanted to be able to grow poppies in her garden but each time she planted poppy seeds in the flower patch, not one of them ever grew into a poppy plant. This made Maggie very sad.

ACTIVITY POPPY SEED WORD TRACING

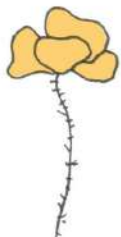

Trace the poppy seeds to write the words
“Poppies” and “Maggie loved poppies”.

poppies

Maggie loved poppies.

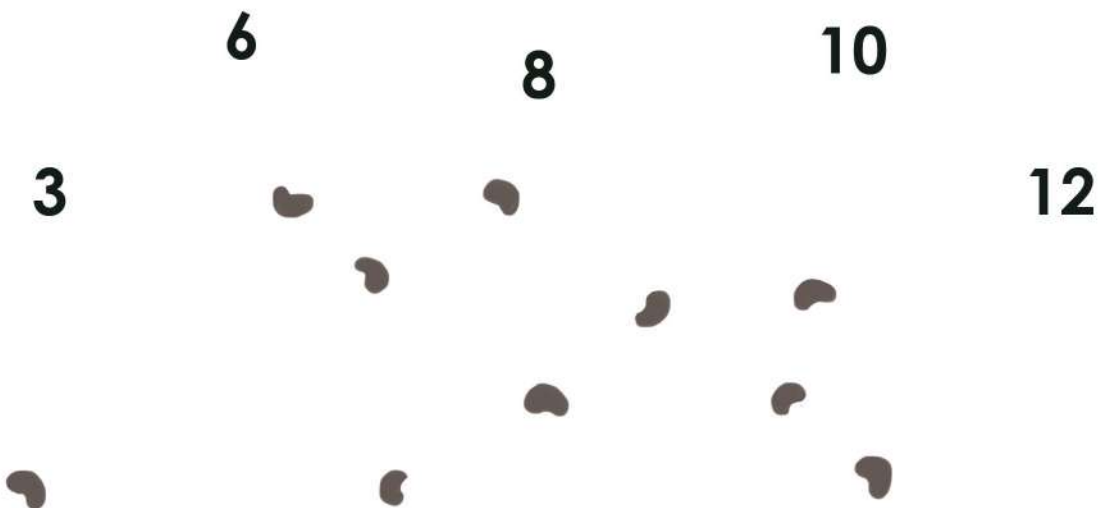

Maggie tried everything she could think of to make the poppy seeds grow:

- She found the prettiest pot in her Mommy's garden
- She added the softest earth
- She planted the seeds at just the right depth
- and she watered them every day

ACTIVITY POPPY SEED COUNTING

**How many seeds did Maggie plant?
Count the seeds and circle the correct number.**

Even Yoko the cat and Piggy the pink cuddly toy pig tried to help out. Yoko gently fluffed up the earth with one of her paws and Piggy gave the seed pot a loving hug. But, no matter what they did, those pesky poppy seeds just would not grow.

"Oh dear!" sighed Maggie,
"I don't know what more
I can do - and I do so
much love poppies."

ACTIVITY CIRCLE THE PHONIC 'P' WORDS

Circle round the items with names beginning with the letter 'p' sound. The first one 'p' for 'poppy' has been done for you.
